

Only 1 in 10 survive a cardiac arrest.

# WE CAN BEAT THAT

**RESTART A  
HEART DAY**  
OCTOBER 16

RESTART A HEART IN **3** SIMPLE STEPS!

**1.** Call 111

**2.** Push

**3.** Shock

[restartaheart.co.nz](http://restartaheart.co.nz)

[#restartaheart](https://www.instagram.com/restartaheart)

## 1. CALL 111

Make sure it is safe to approach:

- Check for any response from the victim
- Tilt the head back, lift the chin and check breathing
- If breathing is absent or not normal, CPR is needed
- Call 111 and follow their instructions
- If someone is there to help, ask them to call 111 for you, and fetch an AED if possible.

## 2. PUSH

- Place both hands in the centre of the chest
- Compress the chest to the rhythm of "Stayin' Alive"
- If you learned how to do it, provide 2 rescue breaths between every 30 compressions, otherwise push the chest continuously
- Push hard. Don't worry, you can't do any harm.

## 3. SHOCK

- If an AED arrives, switch it on immediately and follow the instructions.
